

DC Immunization Welfare Center

Attachment A
2008

Description of Required Schedule of Services or Benefits:

The purpose of the DC Immunization Welfare Center (DCIWC) is to provide vaccination such as hepatitis “B”, measles, mumps and rubella (MMR), diphtheria, polio, tetanus (DPT), and whooping cough, through organized events to poor and needy children free of cost who cannot otherwise afford them. *DCIWC has initiated activities in the state of Bihar, India, where children rarely receive immunization due to poor economic conditions and lack of education. Parents in poorer areas of India have no knowledge of immunization.* According to the *Washington Post* 57% of women in India give birth at home attended by untrained health care providers and more than half of the population make less than \$ 2.00 a day. It is very hard to think about immunizing those children who took birth by untrained health care providers. DCIWC’s goal is to provide vaccinations for poor and needy children, and awareness about importance of immunization. Since November 2007, DCIWC has adopted St. Mary School that has about 750 poor children and committed to provide Hepatitis “B” vaccines to all children.

DCIWC started providing vaccination to poor and needy children in India in November 2003. DCIWC is operated from the USA and all donations received in the USA are sent to Buxar, Bihar, India. So far, DCIWC has provided 145 vaccinations in 2003, 545 in 2004, 620 in 2005, 550 in 2006 and 729 in 2007. From November 2003 to December 2008, DCIWC has provided 3701 vaccinations. The following table describes the real services/benefits provided in calendar year 2008 by the DCIWC:
