

Vaccinate the Children, Save theFuture

2020Activities

TheProblem:

C Immunization Welfare Center (India) doing business as Children Immunization Foundation (CIF) in USA has provided Hepatitis "B" vaccines to more than 10000 students in 28 schools, has installed purified drinking water system benefiting more than 1500 students and has conducted health educational awareness seminars since 2009.

COVID-19 Problem in 2020

Since March 2020, we all witnessed that the lethal power of Corona Virus caused hundreds of deaths, severe health hazards, lockdowns of offices, closing schools, factories, shops and millions of people lost their sources of income. Worst affected were the poor and needy people.

During COVID, the DCIWC distributed more than 1200 food packages (groceries for a week or more depending on family size), 2000 bottles of hand sanitizers, 1800 masks, 1000 of pieces of soaps to poor and needy families, and oxygen cylinders in Buxar hospital to save patients in ICU. In addition to that DCIWC provided educational seminars to many place to prevent and reduce risk from COVID-19.

HepatitisB Virus(HBV) and clean drinking water and lack of education are majorpublichealthproblemsinIndia. The estimated HBV carrier rate in India is 4percent,with a total pool of approximately 40 million carriers. The virus isblood-borne and spreads through bodily fluids. Although many peoplehaveaccess to most other vaccinations, Hepatitis B vaccinations areveryexpensive and are not easily accessible, especially in rural areas.**Morethan 600,000 Indians die each year due to complications fromHepatitisB. Lack of clean drinking water creates overall unhealthy population in India. Root of all diseases is lack of awareness of health education.**

HowWeHelp:

CIFtravelstoschoolsinremotevillagesinthestatesofBihar,andUttarPradesh, with plans of expansion to other states. There, CIF sets upclinicsto offer free vaccinations to schoolchildren whose families cannotaffordthe price of a vaccination. Three doses of the vaccination offer achildlifelong protection against Hepatitis "B"disease. As a donor, you are helping to provide an underprivileged child with a healthy future. So far CIFhasvaccinated more than 10000 children in 28 schools. CIF provided benefitstomore than800 children in 2018 alone. For detail, please visit:
